Developing
Products That
Help Patients
Go Quickly
From Hospital
to Healthier.

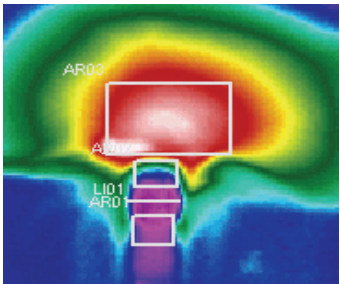

CryoVascular

Founded: 1985, CryoVascular Systems
Location: Los Gatos, CA

Key Product Categories

- CRYOPLASTY SYSTEM**
(PERIPHERAL VASCULAR DISEASE)
- PolarCath Balloon Catheter
 - PolarCath CryoInflation Unit
 - PolarCath Refrigerant Cartridges (Liquid Nitrous Oxide)

Electrophysiology

Founded: 1996, Mansfield EP
(also EP Technologies and Cardiac Pathways Corporation)
Location: San Jose, CA

Key Product Categories

- STEERABLE RF ABLATION CATHETERS**
(ACCESSORY PATHWAY ARRHYTHMIAS, ATRIAL FLUTTER)
- Blazer™ II, Blazer™ II XP (bidirectional steering)
 - Steerocath™ T (bidirectional steering)
 - Polaris™ T

- STEERABLE RF ABLATION CATHETERS WITH COOLING** (VENTRICULAR TACHYCARDIA)
- Chilli® II (bidirectional steering)

- STEERABLE RF ABLATION CATHETERS WITH NAVIGATION** (ACCESSORY PATHWAY ARRHYTHMIAS, ATRIAL FLUTTER)
- Blazer™ RPM (bidirectional steering)
 - Blazer™ XP RPM (bidirectional steering)

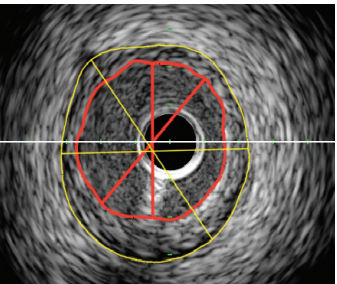

- CRYOABLATION CATHETERS** (ATRIAL FIBRILLATION)
- Cyro balloon catheter

- EP DIAGNOSTIC CATHETERS** (INTERCARDIAC ELECTROPHYSIOLOGIC MAPPING)
- Polaris™ DX (with directional steering)
 - Steerocath™ DX (bidirectional steering)
 - Constellation® Basket Catheter

- RF GENERATORS** (CARDIAC ARRHYTHMIAS)
- EP-1000
 - Maestro™ 3000

Key Technologies and Processes

- Steerable catheter (intercardiac access)
- Catheter-based ultrasound navigation (intercardiac mapping and access)
- RF Generator Technology (ablation energy source)
- Signal processing (electrophysiologic signal analysis)
- Image importation (intercardiac mapping)

Imaging

Founded: 1989, Cardiovascular Imaging Systems
Location: Fremont, CA

Key Product Categories

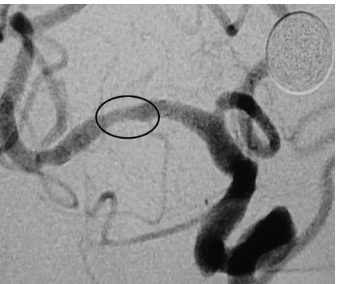

- IMAGING CATHETERS**
- Coronary: Atlantis® Pro, iSight™ [2006]
 - Peripheral Vessels: Atlantis®, Sonicath®
 - Intracardiac: Atlantis® ICE

- ULTRASOUND SYSTEM CONSOLES**
- Galaxy™ 2 (mobile cart)
 - iLab™ [2006] (mobile cart or permanently installed)

- MOTOR DRIVES**
- MDU-5 (Galaxy 2, iLab)
 - MD6 (iLab [2006])

Key Technologies and Processes

- High resolution transducers
- Tissue characterization
- Improved workflow
- Image fusion
- Catheter materials

Neurovascular

Founded: 1985, Target Therapeutics
Location: Fremont, CA

Key Product Categories

- DETACHABLE COILS** (BRAIN ANEURYSM)
- Bioactive: Matrix2™ Coils
 - Bare Platinum: GDC® Coils

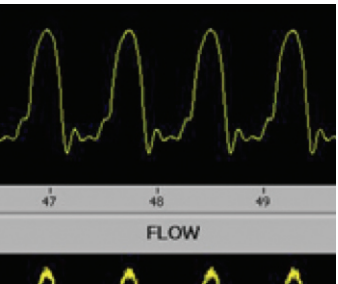

- STENTS** (BRAIN ANEURYSM, INTRACRANIAL ATHEROSCLEROTIC DISEASE)
- Aneurysm: Neuroform3™ Stents
 - ICAD: Wingspan™ Stents

- GUIDEWIRES** (NEUROVASCULAR)
- Microfabricated: Synchro® Guidewires
 - Conventional: Transend® Guidewires

- MICROCATHETERS** (NEUROVASCULAR)
- Excelsior® SL-10 Microcatheter
 - Excelsior® 1018 Microcatheter
 - Tracker® Excel-14 Microcatheter

Key Technologies and Processes

- Microcatheter (aneurysm)
- Guidewire (aneurysm)
- Next-generation bioactive coils (aneurysm)
- Next-generation stent (aneurysm)
- Covered stent (aneurysm)

Vascular Protection

Founded: 1998, Incept LLC
Location: Mountain View, CA

Key Product Categories

- EMBOLIC PROTECTION SYSTEMS**
(ATHEROSCLEROSIS)
- FilterWire EZ™ (3.5 mm/ 5.5 mm/7.0 mm): guidewire-based embolic debris filter
 - EZ Plus™: retrieval catheter for EZ product line

- ASPIRATION CATHETER** (ATHEROSCLEROSIS)
- Rio™: aspiration catheter, vacuum-assisted thrombus removal

Key Technologies and Processes

- Spray forming (atherosclerosis)
- 3D laser machining (atherosclerosis)
- 3D CT HiRez scanning (atherosclerosis)
- Biosimulation and flow modeling (atherosclerosis)
- Video inspection (atherosclerosis)
